

Wisconsin Department of Natural Resources- Laboratory Certification Program

Alphabetical Listing of Regulated Pesticides and Conventional Methods

Created 1-30-96

This table is based upon the Wisconsin Department of Agriculture, Trade and Consumer Protection's target pesticide list for the Agricultural Chemical Cleanup Program (ACCP) and other DNR programs which regulate pesticides. Compounds on the DATCP list that are not certifiable by the DNR have a "00" in the Certification Category.

<p>The following abbreviations are used for the pesticide classes:</p> <p>Acid- Acid Herbicide Carb- Carbamate Pest. NP- Nitrogen Pest. OCIP- Organochlorine Pest. OPP- Organophosphorus Pest. Triaz- Triazine Pest.</p>	<p>The following abbreviations are used for the regulatory programs:</p> <p>DATCP- Dept. Agriculture, Trade and Consumer Protection NR 140- Groundwater NR 219- Wastewater NR 809- Safe Drinking Water App. II- Title D, 40 CFR 258 appendix II</p>
<p><i>Note:</i> A pesticide can only have one class but may be certifiable in several subcategories depending on the method(s) used.</p>	<p><i>Note:</i> This list does not necessarily include all regulatory programs or regulated compounds.</p>

Regulatory Framework Applicable Programs Indicated by "X"

Pesticide Name	CAS	Method	Matrix	Cat.	Subcategory	Class	DATCP	NR 140	NR 809	NR 219	App. II
